

PREMIUM PERFORMANCE. AFFORDABLE PRICES. FOOD SAFE.

With PURITY™ FG, there's a food safe lubricant for all your industrial equipment needs. Alongside mineral oils and synthetics, we also offer an advanced additive technology, SynFX™, which brings together the cost efficiency of mineral oils and the performance level of synthetics, allowing you to experience the best of both worlds.

Our technical experts are happy to start you on the path to reducing risk and optimizing the life of your equipment.

Watch the video below to learn more.
