

580 x 300

Hello,

We're very excited to invite you to the Cummins Marine Virtual Showcase! On Wednesday, April 14, 2021, we will be launching two new products including a Tier 4 solution and previewing our latest technology, PrevenTech®. This year's event features two industry experts covering the future of marine power — hydrogen and electrification. Stay connected and up to date on industry trends by registering below with the click of a button! We look forward to seeing you, mariner to mariner.

REGISTER TODAY

Here's a sneak peak at some of the exciting topics we'll be covering:

- Step into the future of emissions! The QSK60 and QSK38 combine power and Tier 4 emissions standards to propel your success.
- Looking for an engine manufacturer? Come listen to two experts discuss how Cummins was an incremental partner that provided customized solutions for their unique projects.
- Cummins' new B4.5L is our smallest yet, but you won't lose an ounce of power with this mighty propulsion / auxiliary option.

[Visit our event page](#) to learn more about our event schedule and program details. You can attend any or all events, and will have the opportunity to wander through our virtual space at your leisure.

Presentation lineup

All times are in CDT.

10:00 a.m. — Tier 4 Powering ACBL on the Inland Waterways

10:20 a.m. — Smart Vessels With PrevenTech

10:35 a.m. — Delivering More: The QSK60 Tier 4

11:00 a.m. — The Electric Decision

11:20 a.m. — A Military Partnership That Performs

11:40 a.m. — Small Profile, Big Performance: The B4.5

12:00 p.m. — Making Waves With Hydrogen

Short on time? Feel free to join any or all of our presentations.

Why Cummins Marine?

Cummins is at the forefront of marine technology. Our newest PrevenTech Marine and FleetguardFIT™ technologies integrate remote diagnostics, allowing you to improve performance anywhere in the world. All of our marine products are designed by our engineering and marine specialists, who pay close attention to performance measures, onboard experience and industry requirements. From the design of your vessel through installation, maintenance and repower, Cummins is your partner every step of the way.

Mark your calendars! We look forward to seeing you at the show.
