

**We can’t take all the credit for 100% plant-based emollients. Nature played its part.**

**But we should be proud of our ongoing commitment to providing high-quality ingredients for the care and cosmetics industry. We’re redefining industry benchmarks as we meet the increasing demand for plant-based and sustainable products.**

**The future of personal care and cosmetics is here... and we’re in a great position.**

With our customers coming under tighter scrutiny from consumers, they want to feel good about their formulations and have confidence that the ingredients they’re using are having as little impact on the planet as possible.

**SonneNatural™, our range of 100% plant-based products, gives them high-quality ingredients and peace of mind.**

- 100% natural plant-based products
- Exceptional transepidermal water loss (TEWL) performance
- Wide range of sensory characteristics to best enhance the finished formulation
- Natural Index of between 0.598 and 0.716 and a Natural Origin Index of 1 according to ISO 16128
- 100% vegan certified

**We’ll be showcasing our range March 28–30, 2023, at stand C60 at **in-cosmetics Global in Barcelona.****
